VAUGHAN'S CHICAGO

FLORISTS' SHOULD SELL.

VAUGHAN'S CHICAGO PARKS LAWN SEED.

Prepared for use in the Chicago parks, named by us and sold at our Chicago Stores for many years with very general satisfaction. It will produce an even, dense growth of permanent sward as early in the season as it is possible to do. The mixture contains no annual grasses for making quick show to the detriment of a good lawn, but only those of lasting value and hardiness, which, when once established, will require no further care.

Price per pound, 1 lb., packages, 15c.; in ½ pound packages, 2½¢. per pound; 5 lb., bags, 70c.; 10 lb., bags, $1.30; 15 lb., bags, $1.75; 50 lb., bags, $11.00.

VAUGHAN'S CHICAGO PARKS LAWN SEED.

Florists who have a retail store will find this a very profitable article to handle. We can furnish it put up in neat pasteboard boxes, also in neat white cloth bags of 5 pounds, 10 pounds and 15 pounds each, with directions for sowing.

ESTELLE. This is all we claimed for it last year, as the best red carnation now on the market. Everyone who bought it of us last year is more than satisfied with its behavior. The best description, in a few words: The flower size of Jubilee, color of Portia, with Tidal Wave growth. Per 100, $7.00; 1,000, $60.00. Stock limited.

MARQUIS. This has proven all the introducers claimed for it, proving the best of all the bright pink Carnations sent out last year and giving universal satisfaction to all who have grown it. We advise late lifting from the field. Per 100, $5.00; 1,000, $40.00.

GENEVIEVE LORDE. Very free bloomer; flowers large and a beautiful clear pink. Has given good satisfaction up to date. Per 100, $5.00; 1,000, $40.00.

Slightly darker but brighter in color; habit much more desirable than Daybreak and giving more blooms throughout the season. If you want a good light pink, grow Morning Glory. Per 100, $4.00; 1,000, $35.00.

GUARDIAN ANGEL or The Sport. This is the pink sport of Armazinda, on which it is an advance, except in color of flower, which is pink, color of Scott. Fine large flower and excellent stem. Anyone who can grow Armazinda, we advise to try Guardian Angel. Per 100, $5.00; per 1,000, $40.00.

CARNATION “PROSPERITY.”

Known first as No. 606.

Messrs. Dailledouze Brothers, who are propagating and introducing this new variety to the trade, have well proved its value in the New York cut-flower market for the past two years, the blooms reaching in that city a year ago at plus cents each for nearly the entire winter season. It is the largest flower yet produced but not so double as Mrs. Bradt. Messrs. Dailledouze Brothers say of it: “No. 606 has been awarded the highest honors wherever shown. Its habit is, as has been stated by all Carnation growers who have seen it, growing nearest to the ideal yet produced. It makes no useless grass, but goes straight up to bloom, one shoot follows the other continuously, and will attain a height of 4 feet by January 1st, under no special culture. It is not subject to any of the diseases that attack Carnations, and altogether it is a clean, healthful and exceptionally strong grower. We modestly claim that No. 606 is the largest perfect Carnation ever offered—4 inches in diameter. The color is entirely distinct and does not conflict with varieties now on the market. The ground color is white, overlaid with pink in mottles, deepening as the season advances, reminding one of the beautiful tints seen in Azaleas and Rhododenrons.

CHOICE AND RARE VARIETIES.

COL. D. APPLETON. The best yellow of last year's introduction. The flower is Japanese incurved, bright yellow in color, of great depth and solid build, not showing any center, the lower florets reflexing to the foliage. Besides its immense size and beautiful color, another point in its favor is its almost faultless stem and foliage. Doz., $1.25; 100, $10.00. Ready March 1st.

W. H. CHADWICK. This is the finest late white Chrysanthemum that has ever been introduced, either for commercial purposes or for exhibition. Flowers are pure white, occasionally tinted with pink. An ideal grower, with very strong stem and luxuriant foliage, meeting all the requirements of a first-class, A No. 1 market flower, every stem producing a perfect flower of the very largest size. You can bank on this as a big cut for Thanksgiving. Ready in March. Doz., 75c.; 100, $5.00.

GOLDMINE. Unsurpassed in size, having been grown 11 inches in diameter. Foliage and general habit resembles Sunderbruch. Rich golden-yellow. Outer petals reflexed and center incurving in a wheel. In perfection November 20th to 30th. Great flowers were from buds taken October 10th. Doz., $1.25; 100, $10.00.

INFINITAS. Form reflexing showing only the bright crimson upper surface of petals. Stem slender but sufficiently strong to carry the flower erect. 4½ feet high. Those desiring succession of flowers can readily conceive the value of this Chrysanthemum in perfection November 20th to 30th, a date when other good reds are scarce. Doz., 75c.; 100, $5.00.

WALTER MOLATSCHE. October 5th, and the variety is most easily described as an early Wm. H. Lincoln. It is of good size, full center and excellent keeper. In habit the plant is dwarf, growing about 3 feet high, the stem is thick and sturdy and the foliage all that can be desired. Doz., 75c.; 100, $5.00.

SUPERBA. The latest Japanese incurved pink that has come to our notice, being in perfection December 10th to 20th. A very double flower 5¼ to 6 inches in diameter with high, rounded center. Color bright pink. This we believe to be one of the best commercial varieties. Doz., $1.00; 100, $8.00.

WHITE BONNAFON. A commercial variety of great promise which we predict will become as popular as the typical Maj. Bonnafon. Color pure white, form identical with Bonnafon, growth very short-jointed, not exceeding 3 feet in height. Foliage large and very dark green. Its latest (November 20th to 30th) greatly enhances its value. Doz., $1.00; 100, $8.00.

YELLOW CHADWICK ECLIPSE. Has all the good qualities of W. H. Chadwick, same shape and size of flowers, the color being a chrome yellow. We recommend this for this first-class late yellow. Per 100, $5.00.

MRS. TRENOR L. PARK. The color is unsurpassed by any of its class, being our bright golden-yellow; in size, the largest yellow we have ever grown. In finish it is exquisite: the stem and foliage are grand, being a fine, handsome grower of medium height—a midseason variety. For a pot plant it cannot be excelled. Per 100, $4.00.

JOHN K. SHAW. Ball-shaped, incurved, pink. One of the very best commercial varieties. Very strong grower, with exceptionally strong stem and luxuriant foliage. An excellent keeper and shipper. This variety sells well over the counter, ready to cut October 25th. Per 100, $5.00.

XENO. A very late bright pink of the Japanese incurved type. In color similar to Mrs. Perrin, but larger and perfectly double. Cut November 24th. Per 100, $5.00.

GEO. W. CHILDS. The best red for general purposes, fine for pot plants or for cutting. Per 100, $5.00.

YELLOW MRS. JEROME JONES. We consider this one of the very best to grow for your Thanksgiving flowers, is identical with the white Mrs. Jerome Jones, except the color being a bright lemon-yellow. Per 100, $5.00.

MRS. ELMER D. SMITH. (N Smith & Son.) Of the many fine seedlings we have produced in the last ten years, we consider this one possesses more points of excellence than any of its predecessors. A Jap. Inc. of the most perfect form; full, double, high rounded center. Bright yellow, deeper than Golden Welding. In the C. S. A. Cup Contest, at Chicago, it stood second, falling only one point behind the winner. The blooms in this exhibit were 7 inches in diameter. Stem and foliage perfect; scant 3 feet high. This variety will rival Maj. Bonnafon, being brighter in color, more dwarf, very similar in form, with much heavier and stronger stem.

In season November 1st to 10th. Four of the C. S. A. Committees gave this variety an average of 92.75 points. Each, 50c.; doz., $5.00; 100, $35.00. Ready April 1st, 1901.

TIMOTHY EATON. The Canadian Novety; large white, Wannamaker type. Each, 50c.; doz., $5.00.

Excellent for making large specimen plants. Every florist should grow the Boston Fern. We have the finest stock in the West. All our plants are pot-grown, bushy stock, well furnished with fronds from the pot up, and cannot be compared with the cheap, long-drawn-up, lifted stock from the bench. To use in fern dish, cut ball in halves, placing flat side down, thus getting two dishes of beautiful ferns. The Fern Ball may be allowed to dry up at any time and be set away, and started again by watering as before.
New GERANIUMS

THE GRAND PINK BEDDER, JEAN VIAUD (Bruant).
The best of all new Geraniums sent out for a long time. The plant is of stocky growth; incessant bloomer; flowers of large size, in immense trusses. Flowers are semi-double, very similar to those of Beau Peigne, but the exquisite light fresh rose tint is entirely different. The upper petals are marked with two beautiful white blotches, adding greatly to the freshness of coloring. It is a plant of the future. Its habit of growth, uninterrupted blooming and hardness will attract attention at once, and it will be grown in large quantities when better known.

Each, 15c.; per doz., $1.50; per 100, $10.00.

ROSES FOR FLORISTS.

THE GRAND NEW ROSE—PRINCESS OF NAPLES.

The plant has the same habit, size and shape of flowers as the American Beauty, only the color being a delicate satiny pink; the fragrance is excellent. We strongly recommend this rose as a pot plant; for forcing it requires no protection of any kind and does not need much care. When started into growth it will give a flower on every shoot, producing stems, which, once started, will continue all season long. America is an excellent American Beauty for the retail counter trade and would be preferred for many purposes. A brilliant and showy flower with a 16-inch to 2-foot stems and fine foliage. Some American growers have great confidence in it and are preparing to plant largely.

Strong plants, 2½-inch pots, own roots. Per dozen... $5.00
For 50 plants. $1.50; for 100, $3.00; for 200, $5.00.

THE NEW ROSE—MARQUIS LITTA.

This is the rose which attracted so much attention at the Show last fall. It is a hybrid tea, of bright red color, somewhat like the deepest shade seen in a Bon Silene bud. A brilliant and showy flower with 16-inch to 2-foot stems and fine foliage. Some American growers have great confidence in it and are preparing to plant largely.

In every class of interest for Florists, such as Asters, Pansies, Primulas, Cyclamens, Cinerarias, etc., we not only carry a complete assortment, but also the most expensive strains that the most careful growers and hybridizers can produce. We use in all our choicest mixture of the florists' seeds some varieties which actually cost us more than the selling price, but which bring up the mixture to a high standard.

Of New Crop and Tested Germination.—We prove the growth of our active selling stocks twice a year and none are sold out which do not show the right percentage of growth.

By Our Contract Arrangements, supplying our stock seed, we are in position to offer Flower Seeds at very best trade rates, but of quality much superior to average importation.

NOVELTIES AND SPECIALTIES.

**ARCTOIS GRANDIS.**

A remarkably handsome new annual from Southwest Africa, growing luxuriantly and forming profusely branched bushes of about 2 to 2½ feet in height and breadth. The leaves are soft and white. Its flower-heads, borne on long stems and rising well above the foliage, are large and showy, from 2½ to 3 inches across; the ray florets being pure white on the upper surface, are embossed by a narrow yellow zone at their base; reverse of petals pale lilac. Under the influence of bright sunlight the flowers spread out almost flat, and the pure white of the ray florets contrasts beautifully to the light blue disk with its slightly projecting white stamens, a lovely combination of colors. Being of very easy culture, the plants produce their splendid flowers most abundantly and in constant succession from early summer to the autumn. Pkt., 15c.

NEW GIANT FRAGRANT SNAPDRAGONS.

The flowers of this new strain are of very large size, very fragrant, and are produced on immense long spikes, which render them extremely well adapted for cut-flowers. They are easily raised from seeds, and will grow and bloom in almost any rich, sunny bed. Spring seedlings begin to bloom by midsummer, and if the flowers are cut freely the flowering will be continuous till fall. If intended for winter flowering, cut them well back in September, to induce strong, hardy growth.

New Giant Imperial Centaurea.

*Centaurea Imperialis.*

This new Centaurea, a cross between C. Moschata and Margaret, represents the best that has been produced in these beautiful summer-blooming plants. The bushes are about 4 feet high, of enormous dimensions and are covered with large, beautiful flowers of the same form and fragrance of Centaurea Margareta. The flowers will keep over a week in water, if cut just when they are about to open. It is of easiest culture, which cannot be said of C. Margaret.

We can furnish them in the following colors:

**Pure White.** One of the best white flowers for cutting, extremely large, sweet and beautiful.

**Armida.** Very delicate color, pink with white tinge.

**Favorita.** Brilliant rose.

**Graziosa.** Intense dark lilac.

**Splendens** Brilliant dark purple.

**Variabilis.** White, marked purple.

Price of any above 6 kinds, per oz., 50c.; ½ oz., 80c.; 1 oz., 10c. Any 3 pkts., 20c.; 6 pkts., 1 oz., of each kind, for 30c.

New Giant Imperial Centaurea—All colors mixed. Per oz., 50c.; ½ oz., 80c.; 1 oz., 10c.

**CANDYTUFT—LITTLE PRINCE.**

In appearance like the Giant Hyacinth-Flowered. The bushes grow only about 6 inches high, the spikes are very massive, pure white and planted in a row or mass, the effect is very fine. It also makes a fine pot plant. Trade pkt., 10c.; ½ oz., 20c.; oz., 60c.

**Chrysanthemum Maximum “Princess Henry.”**

The finest and most valuable of the Maximum varieties. This very Boriferae plant, which grows only about 18 inches high, is of a globular shape and very decorative, the flowers open 4 inches and more in diameter, and give an abundant and very handsome material for cutting. It comes true to seed. It is not particular as to soil, coming up every summer in the same beauty for many years, and outlasts the severest winter. Pkt., 15c.

Vaughan's International Pansies are the "World's Best."

Spike of Giant White Snapdragon reproduced from a photograph two-thirds natural size.
EVERLASTING PEA, "PINK BEAUTY."  

Lathyrus Latifolius Var.  

A hardy perennial that will bloom from seed the first year.

An entirely new variety, the color of which is a distinctly shaded pink on the standard, the lacing on the edge being paler than the center; the wings are deeper pink, of a very rich shade, giving it a very striking appearance. The trusses, as well as the individual flowers, are larger than the older varieties.  

Trade pkt., 10c.; oz., 15c.; 2 oz., 25c.

Vaughan's New Upright Branching Asters.

In habit of growth this new Aster resembles the Truffaut Peony-flowered type, but the plants grow from 10 to 12 inches taller. The flowers are large, very double, and of the true "Semple" type. The plants grow about 30 inches high, and produce from 20 to 25 flowers, which are borne on stems from 20 to 25 inches long. Its upright habit admits of close planting and it will attain full growth when set only 18 or 24 inches apart. The growing of many plants in a small space is a decided advantage when room is scarce. We can furnish this in white and pink.

Vaughan’s Upright White Branching Aster.  

Trade pkt., 15c.; ½ oz., 25c.; oz., 50c.; ½ lb., $1.75.

Vaughan's New Pink Branching Aster.  

Trade pkt., 25c.; ½ oz., 40c. ; oz., $1.60.

NEW GIANT VICTORIA ASTER.

SNOW WHITE.

The plants are strong, luxuriant growers, attaining a height of about 2 feet, branching out freely into well-formed bushes of pyramidal habit, each plant bearing 15 to 20 magnificent, very large, very double flowers that are 4½ to 5 inches in diameter. The broad petals are beautifully imbued, laying the fashion one on top of the other to the center of the flower. Really a grand variety for show beds and for exhibition purposes. Trade pkt., 25c.

SINGLE LATE-FLOWERING ASTER.

PALE MAUVE.

This is the true original type from China. The plants form elegant branching bushes about 15 inches high, well furnished with dark green foliage, producing an abundance of large, handsome flowers 3 to 4 inches across, having a single row of pale mauve ray florets and a golden central disk. It is quite distinct from any of the single asters now in commerce and is indeed a plant of great beauty. Trade pkt., 10c.

ASTER—DAYBREAK.

This beautiful Aster for florists' use is simply unsurpassed. The flowers are round as a ball, very large and full, on long stems; the color a charming sea-shell pink; the plant flowers very early and is a continuous free bloomer, a compact, strong grower, and in all respects a desirable acquisition.  

Trade pkt., 25c.; ½ oz., $1.00.

THE "MAYFLOWER" VERBENA.

This is of the same trailing habit as the Althea or Mayflower, its branches creeping over the ground and hugging it closely. Its blossoms appear in clusters at the ends of the creeping vines, and are of the same shape and about the same size. The new Verbenas Mayflower has all these characteristics, with the additional merit of possessing the same lovely and delicate pink and white coloring, making its flowers closely like the Althea; and, last, it has the same exquisite fragrance. It was originated by Luther Burbank, who pronounced it one of the greatest achievements of his work in hybridizing and growing new flowers and fruits.  

Trade pkt., 26c.; ½ oz., 50c.; oz., $2.00.

VERBENA, BURRANK'S "NEW FRAGRANCE" STRAIN.

Mr. Burbank says: "This came originally from "Mayflower Verbena", but is improved by selection, so that a greater per cent. are fragrant and in all colors now. The flowers are of the very largest size and it is without a doubt the best strain of Verbena in existence." One of the best strains of Mr. Burbank's own making. Trade pkt., 25c.

NEW GIANT PYRETHRUMS.

Pyrethrum roseum hyb. grandiflorum.

The flowers of this new strain grow to the enormous size of 12 inches in circumference and present all the beautiful variations of color between light pink, rose and deep carmine. They are splendid cut flowers and equally valuable in borders. The plants are perfectly hardy and increase in size from year to year. Pkt., 15c.

MOSS VERBENA.  

This new Verbena, produces a mass of fine, moss-like foliage, and as the branches spread out over the ground in all directions, a lovely carpet of mossy green is formed, above which are borne the delicate clusters of blossoms in the wildest profusion. The effect is most charming. It is more hardy and robust than most Verbenas, and blooms in a very short time and until late in fall. It is novel and beautiful.

Purple Moss Verbena, trade pkt., 10c.

New White Moss Verbena, pkt., 15c.

SALVIA.

TALL DEEP SCARLET BOUQUET.

A splendid plant, growing to a height of 3 feet, with very handsome dark green foliage, and large flowers of the most intense deep scarlet, standing in a mass well above the foliage, and presenting the appearance of a large bouquet of glowing fire throughout the whole summer.  

Trade pkt., (30 seeds), 25c.

NEW ABYSSINIAN PRIMROSE.

(Primula Verticillata Grandiflora.)

This is one of the most desirable Primroses. The flowers are large, of a delightful light color and are borne on stems 3 to 4 to a stem, well above the beautiful glaucous leaves. It is one of the best sorts for the house, being in bloom for a remarkably long time. Pkt. (500 seeds), 25c.

NEW "PILLAR" FORGET-ME-NOT.

The Pillar-shaped Forget-me-not is most striking by its very charming structure. All the branches grow straight upwards without ever bending to the side. By this compact growth every plant forms a regular pillar or column. This habit makes this variety particularly useful as a pot plant or as edging for flower beds and any other decorative purpose.

White Pillar, Pink Pillar, Blue Pillar, pkt., 10c; one each of the three for 30c; 3 oz., 15c; different colors, mix'd, pkt., 10c.

INCARVILLEA DELAVAYI.

One of the most beautiful and interesting plants that has recently been introduced. The flowers, which resemble Gloxinia in shape, are produced on stout stalks, about 3 feet high and are of a rosy-carmine color, spotted with yellow; the throat is brown. The leaves are thin and resembling in appearance a beautiful fern. It is of easy culture, and it will bloom during the first year if the seed is sown in a cold frame very early in the Spring. It proved hardy in Chicago, with a protection of leaves.  

Pkt. (40 seeds), 15c.

### LOBELIA "BEDDING QUEEN."

This new variety is undoubtedly the most remarkable and magnificent of the dwarf Lobelias. The habit of the plant is very dwarf and compact, forming handsome little bushes which are entirely covered with large flowers of deepest purple, contrasting most charmingly with the pure, white eye. Its freedom and durability is remarkable, the flowers last until late in the Fall. The best Lobelia for carpet beds, borders and pots. Trade pkt. 25c.; 1/2 oz., 60c.

### VAUGHAN'S SEED STORE, CHICAGO AND NEW YORK, BOOK FOR FLORISTS.
VAUGHAN'S PANSIES

MAGISTRPIECEN—NEW GIANT CURLED

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as in other Pansy flowers, but they are crinkled and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. We have seen these Pansies in bloom in the originator's grounds and have therefore personal knowledge of their exceptional merit.

Pkt., 50c.; ½ oz., $1.50.

VARIABILIS. Salmon, buff and terra cotta shades, mixed. These shades are greatly added to the already large variety of colors found among Pansies. Pkt. (200 seeds), 10c.

DIANA. Pure cream color; an entirely new shade. Pkt. (200 seeds), 10c.

GIANT PHEASANT'S EYE. Pretty four-colored variety of the Giant class. Pkt. (200 seeds), 10c.

GIANT BRONZE-COLORED. Rich metallic shades, Giant flowers, Pkt. (200 seeds), 10c.

NEW GIANT MADAME PERRET. This novelty is specially distinguished from other Pansies by the plant being full and spreading with very broad and extremely dark green leaves. The straight and still stems it possesses cause the flowers to stand out well from the foliage. The color of the blossom ranges through all the shades of red, from a pink to a deep purple, with an intermediate bright red edged with white. The face of the flower in some cases is regular in color, while in others it is lined and striped. The extraordinary size of the flowers, which reach as much as 6 to 9 inches in diameter, make it a novelty of the first rank, and one that is sure to be sought after by lovers of Pansies.

Pkt. (500 seeds), 15c.; 3 for 25c.; 1 oz., 50c.

EMPEROR AUGUSTA VICTORIA. A charming new sort. Color porcelain-white with a soft blush cast. The upper petals are margined violet, while the lower petals are lined with a rich purple blotch. It was awarded a silver medal at the Hamburg Horticultural Exposition. Pkt. (500 seeds), 10c.; ½ oz., 40c.

NEW GENT SWEET-SCENTED. The flowers of this choice strain are of enormous size, in Spring and Fall, often measuring 4 inches across, and have a much stronger fragrance than any other Pansy.

Pkt., 10c.; ½ oz., 30c.; oz., $1.00.

FAIRY QUEEN. As a bedder, or as a solitary plant, this is a remarkably effective new Pansy. Size very large, color pure sky-blue, splendidly bordered with white, producing a distinct effect and a delicate shade of blue, which is rare. This is by all odds one of the most pleasing colors we have ever seen in Pansies, and its large size and perfect shape make it much more beautiful. 

Pkt., 10c.; ½ oz., 30c.; oz., $1.50; trade pkt., 50c.

VAUGHAN'S INTERNATIONAL PANSIES

Nasturtium.
SPECIAL OFFER—Any four (10c.) ounces of the following Nasturtiums for 25c.

**New Nasturtium ‘Giant’**
This new Nasturtium is most remarkable for its size and beauty in this brilliant family. We find that in richness and variety of colors it surpasses any other strain and is also unique in bearing flowers of **distinctive coloring** in one and the same plant. The flowers are double, a deep crimson in color, and are covered with flowers of a **lower variety**, with a **strong mid-rib**. It is much harder than the **Nasturtium Enite**, and for that reason recommended for planting out-doors, being less affected by the wind. 25 seeds, 40c.; 100 seeds, $1.50.

**Myosotis.** See Forget-Me-Not.

**Tall CAMELION.**—This variety, with its very large white flowers, is unsurpassed for training over fences and trellises, and blooms with the greatest freedom the entire season. Trade pkt., 10c.; 1 oz., 25c. 2 oz., $1.50. 1 lb., $10.00.

**Petunias.**—The Petunias, the Flowers of the Petunias, are among the most effective of all the large-flowered flowers, being of a most lovely character. They are used for borders, for rock gardens, and for the rear of perennial beds, and are very handsome when planted in well-drained, sunny places. They bloom from April to October. Petunias are used in the greenhouse for forcing and are of great value in the winter for use in the windows. Petunias should be planted 6 inches apart. The young plants should be protected from the rain and the sun during the first few days. The Petunias do not need a great deal of water, but they should be kept moist. They are propagated by cuttings and by seed. Petunias can be grown from seed, and the seed should be sown in the greenhouse in March or April. The seed is very fine, and it is necessary to sow it very thinly. The seedlings should be transplanted when they are 3 or 4 inches high, and they should be kept in a warm, sunny place until they are well established. The Petunias should be cut back after flowering, and they should be watered sparingly during the winter. Petunias are very hardy, and they can be grown outdoors in all parts of the United States. Petunias are a very popular flower, and they are used for borders, for rock gardens, and for the rear of perennial beds.

**SWEET PEAS IN MIXTURE.**

*Vaughan's 'Prize' Mixture.—* This mixture contains the cream of the new and standard sorts. It is made up entirely of new and separate sorts, carefully proportioned as to its composition, and we can safely say, "There is no better general mixture in existence," no matter what price or under what name it may be offered. Per 1/4 lb., 20c.; 1 lb., 60c.; 5 lbs., $2.50.

**American seedlings.—** This is a mixture of seedlings not yet named. They are the result of crossing and re-crossing the choicest of the new largest flowered sorts, and this mixture will produce flowers of the largest size, finest form, and in an endless variety of colors. Per 1/4 lb., 10c.; 1 lb., 30c.; 10 lbs., $2.00.

**Eckford Mixture.—** This mixture contains over thirty varieties, including the novelties of 1900 and other choice varieties. Per 1/4 lb., 10c.; 1 lb., 30c.; 10 lbs., $2.50.

**All Colors Mixed.—** Also a very good mixture: contains over 20 varieties. Per lb., 20c., 10 lbs., $1.50.

**Bargain Mixture.—** We find ourselves with large stocks of some of best named kinds. We have taken a few hundred pounds and mixed them. Per lb., 15c.; 10 lbs., $1.40.

**"Vaughan's Best" Mixture of Verbena**

This mixture contains all that is choice and desirable in Verbena. It includes the Mammoth-Flowered strains of three celebrated Verbena specialists—Violets, the beautiful and desirable Boreatton, Wahlenbergia, and the Auricula-Flowered varieties, with their large umbels of white, pink, red, and purple. The New Giant Mixed Verbena. We feel perfectly safe in stating that this mixture of Verbena will eclipse every other strain offered by any other house.

FERTILIZERS.

Please Note. Prices on Bone Meal, Vaughan’s Rose Grower Bone and Lawn Fertilizer are f. o. b. Chicago. If shipped from New York we charge the rate of 30c. per 100 lbs. extra, or $5.00 per ton on lots of 1,000 lbs. or over. Fruit trees and vines to thrive require plenty of well-balanced food. If the food is not in the soil of the orchard or field it will have to be put in. The necessary elements of plant food which are likely to be exhausted are Nitrogen, Phosphoric Acid and Potash. Barnyard manure and Commercial Fertilizers both contain these elements. Commercial Fertilizers contain them in more concentrated, available, better balanced form. Barnyard manure is out of balance—does not contain enough of the mineral elements. There are great differences in Fertilizers as there are in every kind of merchandise.

VAUGHAN’S “ROSE GROWER” BONE MEAL.

This is a special brand we have put up for the trade. It is ground fine, hence acts quickly. Free from acid, very white in appearance and a superb article. It is made upon a bone accumulatant—2 in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our “Rose Grower” bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. The finer bone is ground the quicker the mild acid thrown out can be dissolved by the tiny roots of the plants and made use of as food. A finely ground bone can also be more evenly distributed through the soil.

Unleached Hardwood Ashes. Per 100 lbs., $1.00; 500 lbs., $4.25; 1000 lbs., $8.00.

VAUGHAN'S SHEEP MANURE.

Our Sheep Manure contains larger percentages of ammonia, available phosphoric acid and potash, because of a special method of treatment which preserves these elements during the course of manufacture. A recent test of 50 tons, which was shipped to our buyer, showed ammonia, 4.48 per cent; available phosphoric acid, 1.83 per cent. Actual potash, 2.30 per cent. Ordinary sheep manure contains about 1 per cent. ammonia and an unappreciable per cent. of phosphoric acid and potash.

Price, per 100 lbs., $1.00; 500 lbs., $4.00; 1000 lbs., $7.50; 2000 lbs., $14.00 f. o. b. Chicago.

Clay’s Fertilizer. This valuable imported manure is especially recommended. It should be used in potting soil and as a top dressing. 5 lbs., 50c.; 10 lbs., 85c.; 25 lbs., $1.85; 50 lbs., $3.25; 100 lbs., $6.25. If shipped from New York, $7.50.

Sulphate of Potash. 100 lbs., $3.50; 200 lbs., $6.75; 500 lbs., $15.00; 1000 lbs., $29.00; 2000 lbs., $58.00.

Muriate of Potash. 100 lbs., $3.00; 200 lbs., $5.80; 500 lbs., $13.75; 1000 lbs., $27.50.

Bone, Blood and Potash. This is our best brand of concentrated manure, excellent for mixing into potting soil or as a top dressing. It is a money-maker. For potting soil use about 20 lbs. to a cubic yard of soil, and for top dressing scatter it on about as thick as lawn grass is sown, after loosening the surface of the soil. It is excellent for Carnations if applied by the end of October or in November. It can also be applied as a liquid manure by using an 8 inch potful to a barrel of water. Price, 25 lbs., 75c.; 50 lbs., $1.25; 100 lbs., $2.50; 200 lbs., $3.75.

ADJUSTABLE PLANT STANDS.

This is one of the most useful contrivances a Florist can have, not only for decorating but for permanent conservatory and greenhouse use.

The special merits of this stand may be briefly enumerated as follows: The three feet cause it to stand firmly on a carpet or uneven floor. The upright is of three parts telescoped, being easily adjusted to various heights, fastened by means of thumbscrews which are well made. The top flange will hold any ordinary pot upright, or by using the four-propped crotch attachment, a pot can be placed on its side at two different angles, a very useful contrivance for temporary decorations.

Where large plants weighing two or three hundred pounds are to be elevated, three stands placed close together carry them safely, although the floor itself may be uneven. Four of them are useful for holding a temporary table or platform.

While possessing a number of advantages over any other stand in the market the price is lower.

1 Stand, $1.50; 3 Stands, $4.00; 6 Stands, $7.50; 12 Stands, $14.00.
